

1) Three times a number	2) The sum of 7 and a number
3) Two times the sum of five and a number	4) Four less than a number
5) The quotient of a number and six	6) Two less than ten times a number
7) Twice the product of ten and a number	8) The product of eight and a number
9) A number decreased by nine	10) Three more than five times a number
11) Two less than five times a number	12) The quotient of four and a number
13) Six less than the product of two and a number	14) A number increased by eight
15) Nine decreased by a number	16) Two more than twice a number
17) Three more than a number	18) Three times a number and two
19) Five less than six times a number	20) The difference of five and a number
21) 100 more than three times a number	22) Eight times a number and 7
23) Twenty-eight and four times a number	24) Six more than 9 times a number
25) The product of one hundred and a number	26) A number decreased by twelve
27) Seven less than a number	28) Twenty-one times a number
29) Seven less than twenty times a number	30) The quotient of a number and thirty

HINT: the word **THAN** means to flip it, the word **AND** means leave it

(ex: One less than a number =  $N - 1$ , A number and 1 =  $N + 1$ )

1) How do you feel about your homework assignment? (Circle One)

I can teach it!

Pretty sure I  
have it!

Not so much!

Absolutely do not  
get it!

2) Do feel as though you were able to complete the assignment correctly?  
(Circle only one please)

I can teach it!

Pretty sure I  
have it!

Not so much!

Absolutely do not  
get it!
